

PolyGuard Series Swing Panel Kit (P/N HTK-02)

Now available exclusively for our *PolyGuard™ Series* polycarbonate electrical enclosure is a new Swing Panel Kit. This kit snaps in to our Panel Suspension Kit (P/N BPA-004) to allow subpanels to swing from any side of the enclosure. Simple and easy, just what you'd expect from Enclosure Solutions, Inc.

Features & Benefits-

- The kit includes two hinges, one is spring loaded for easy installation and removal
- The hinges are zinc coated steel
- A grounding lug is built in for easy panel grounding
- Attach to your panel with rivets or screws
- No panel modifications or notching are needed to allow the panel to swing
- Fits in all sizes, swings from any direction

Contact your local agent or Enclosure Solutions, Inc. for more information.
