YAGI Antenna Enclosures

New from Enclosure Solutions is a custom enclosure specifically designed to protect the YAGI antenna. These PVC NEMA 4X enclosures are designed as screw cover junction boxes to accept the direct installation of the YAGI Antenna. Constructed in 0.25" PVC Sheet with a V-O Flame rating and UV Stabilization, these custom enclosures are designed to meet NEMA 4X construction standards just like our Wireless Repeater Enclosures.

Features & Benefits

- The enclosure is 45"x9"x6" to fully protect the YAGI antenna in a waterproof environment
- Brass inserts are pre-installed to mount the YAGI antenna
- The basic kit includes a mounting foot kit, however pole mounting is easily done with standard hardware
- All Stainless Steel closure hardware, fully gasketed cover
- Hinging and latching is available upon request
- P/N ES450906-Y1
